This worksheet has been developed by Wounds UK to help you identify key learning points from the TVN^{TV} videos, and to provide a framework for clarifying and recording CPD initiatives that you carry out as a result of this learning.

Film name:

Film duration:

1. Identifying key learning points

What were the key learning points from this presentation?

2. Reflect: Self-appraisal or assessment

What are your personal and organisational needs related to this session? What could be changed or improved in your practice as a result of what you have learnt?

3. Plan: Designing a professional development plan

What are the possible CPD initiatives related to the needs identified above? What kind of activities could you include to help you address the changes identified above in your practice (e.g. discussions with colleagues, patient records review, interest group meetings, secondments, deputising)?

4. Act: Putting the plan into action

Record a stepped action plan below for implementing the changes identified in section 2 in your practice (photocopy this sheet if you need more space to record your action plan).

Next steps to take

Date of implementation

5. Evaluate: Reviewing the results and assessing their impact

What have you done as a result of this process? What was successful? Did you encounter any problems? Would you do anything differently if you repeated the activity?

How has the initiative impacted on patient care?

6. Claim credits for this activity

Use the table below to record the number of hours spent on this CPD activity, and indicate whether or not the impact factor can be applied:

Time taken for this activity (hours)

Can you demonstrate the impact of this activity on patient care? (If yes, multiply the number of hours spent by two)

Total number of credits claimed
